

The Story

2015 - 2018

Nixene Journal emerged: subscription-only monthly publication.

No advertisements accepted, to maintain an unbiased perspective

- 2017 Graphene academic papers published globally = 25,000
 - @NixeneP Twitter account established
 - Adrian Nixon joined LinkedIn

2019 - 2021

- 2020 Number of graphene academic papers published (data tba)
 - Industry partnerships expanded to include nanotechnology events & organizations
 - Added 5 Social Media platforms: LinkedIn company page; Facebook groups; Instagram; and Pinterest.
 - Established video library at a production rate of 1-2 videos per week, with nearly 100 videos to date

Our company history is easily described as humble beginnings

Adrian Nixon, a scientist and business consultant, began a private research project, providing his scientific analysis. His goal was to create information and understanding about the emerging world of graphene and other 2D materials.

Adrian realized he had discovered a valuable resource in simplifying complex science into an easy-to-understand one-page analysis.

As the pace of global development activity increased around the world, the project quickly became a significant regular undertaking.

- 2013 Graphene academic papers published globally = 14,600
 - Establishes a base to show the rate of increase
- 2014 Graphene academic papers published globally = 15,561

2018 - 2019

- 2019 Number of graphene academic papers published = +127,546
 - Nixene Publishing firmly established its global leadership in clear, concise, unbiased graphene and 2D materials communication, focused on science, not hype

2021 - 2022
